Employment Details

Vinsys IT Services (I) Pvt. Ltd.

Nov 2020 - Current

Role	: Software Developer
Stack	: Java, Spring MVC, Spring Boot, Hibernate, RESTful Web Services.
Database	: Oracle
Build Tool	: Maven
IDE	: STS
VCS	: Git
Repository	: GitHub
Description	: The middleware solution for Diam (Public Authority for Water) comprises of Enterprise Service Bus along with an API Manager to Control and Monitor service invocations. The Service Bus initially validates input parameters/payload and then transforms the request into target system compatible format before invocation. Post receipt of response from target system, the service bus aggregates/filters the response to be sent back to requestor. All the invocations can be managed and monitored through the API Manager. The solution is developed using JBoss Fuse for Service Bus along with Angular and Spring Boot for API Manager.

Responsibility : Responsible for coding and developing using Spring. Writing hibernate mapping files and maintain database. Designing Controller, Service and DAO specific Java Classes

Criatosoft Technologies

Project Title : Sukhad Loan (Microfinance Loan Application).
Role : Software Developer
Stack : Java, Spring MVC, Spring Boot, Hibernate, RESTful Web Services, Junit, Log4j, JavaScript.
Database : MySQL
Build Tool : Maven
