SKILLS

Core-Java, J2EE, JDBC, Apache Maven
SOAP and REST web services, XML, XSD,WSDL, Postman
HTML ,CSS, Apache Tomcat, Spring MVC, SpringBoot
MongoDB, MySQL, Maria DB
Eclipse, Netbeans, Visual Studio Code

Work experience

Torry Harris Business Solutions

APR 2018 — Jul 2020

Software Developer

PROJECT 1: 48Months

DURATION :SEP-2018 to Jul 2020

TECHNOLOGY :Core Java,Core Spring,Spring Security,Maven,Apache,REST and SOAP web services, Angular 6/7.

DESCRIPTION: 48Months Self Care portal is a web based interface that allows the end user to manage, change and update settings for their 48 months account. The portal solution was built on PHP and Zend framework earlier. As part of rebrand the whole architecture layer has been modified, where as the frontend layer comprises of angular and php and backend comprises of java, springmvc and Drupala headless CMS framework has been used.

PROJECT2 : ESB Airtel Africa

DURATION :APR-2018 to AUG-2018

TECHNOLOGY :Core-Java,J2EE,Core-Spring,Spring MVC,Spring-boot,Apache Camel,Apache Maven,Jboss-fuse,Rest,Soap web services

DESCRIPTION: In order to loosely couple Airtel's systems to back-end systems like IN , IPACS,CRM,HLR etc this project was proposed. Under the scope of this project certain web portal API's were developed where a customer can purchase Airtel's bundles online via a web-portal. The API's were developed using Spring-boot and Apache Camel

Roles And Responsibilities:

1. Understand requirements
2. Participated Low level and High level design plans
3. REST API development using Spring MVC
4. Design Front end with Angular 6

CERTIFICATES

JAVA COURSE

July 2016 — Feb 2017

Cluster Info Solutions Bangalore

Trained on Java, J2EE

Trained JDBC, Apache Tomcat

Trained build Maven

Education

Bachelor of Engineering

Jun 2013 — Jun 2016

Visvesvaraya Technological University
